DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 1 and 13 are rejected under 35 U.S.C. 102(e) as being anticipated by Porat. Porat discloses a board feed (2), a covering material feed (6), a glue spreading roller (26), a covering material cylinder(22), a folding and pressing apparatus (30), a delivery apparatus (32), and a drive apparatus (40). The board feed, covering material feed, and the folding and pressing apparatus are inherently capable of being driven independently and the covering material feed and the covering material cylinder are inherently capable of being adjusted electronically.

Allowable Subject Matter

4. Claims 2-12, 14, and 15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
